

March 29, 1947

Prof. W. J. Williams
Rensselaer Polytechnic Institute
Troy
New York

Dear Professor Williams:

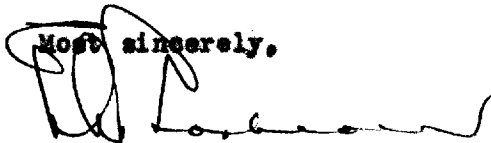

Just a line of appreciation for the time you gave me yesterday in a general discussion of FM transmitter sites for the proposed station of the Troy Record Company.

Our thinking paralleled on all essential facts dealing with the site eastward of Troy and my client is now convinced that the Heldeberge offer our best possibilities.

I meant to request that you please keep the matter of our discussion in strict confidence for obvious reasons. I know that Mr. York and his associates will be grateful if you do.

It was nice seeing you again and as the new station progresses I hope to have the pleasure of seeing you often.

Most sincerely,

Ernest A. Barbeau
