

March 7, 1947

Dear Mr. Cisler:

Since writing you yesterday it occurs to me that you may have knowledge of where we can buy at a bargain some 3 1/8" coaxial cable - about 200 ft. of it, complete with flanges, couplings, seals, elbows, etc. I do not have the layout yet for this installation but you can figure on the normal number of elbows. I believe also you can figure on a dehydrator.

I am not interested in second-hand equipment, but am looking for a bargain on new stuff carrying the manufacturers' guarantee.

Cordially yours,

Ernest A. Barbeau
