General Manager  
The Troy Record Company  
Troy  
New York

Dear Frank:

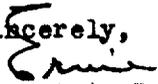

I am enclosing herewith the July issue of FREQUENCY MODULATION BUSINESS to which I referred today and also in my general summary to you about a week or ten days ago.

Pages 19 to 66 are devoted exclusively to factual public data on the 43 FM stations now broadcasting in the United States commercially - actually selling radio time.

I am sure you and Mr. Plum will find this information interesting and encouraging with respect to your own FM broadcast project.

Will appreciate having you return the copy when it has served its purpose.

Sincerely,

  
Ernest A. Barbeau
