

ERNEST A. BARBEAU
RADIO STATION CONSULTANT
84 FURMAN STREET
SCHENECTADY 4, NEW YORK

February 21, 1947

Dear Frank:

Here is my schedule for next week to the best of my knowledge in case you may have to contact me in a hurry.

Monday and Tuesday I will be in touch with General Electric's Electronics Department, 570 Lexington Avenue, c/o Howard Mandernach, District Manager.

Tuesday night leave for Washington on Pennsy sleeper out of Pennsy Terminal.

Wednesday and Thursday in Washington. Expect to contact several persons including John Barron, your engineer, Mr. Kimball of Commercial Radio Equipment Co., International Building, John Creutz, 319 Bond Bldg., Frank B. Hand, Jr., 614 Transportation Bldg., Frank Stollenwerck, National Press Bldg., Murray Long, Broadcasting Publications, 870 National Press Building, and will also contact the General Electric Company, 806 - 15th St. N.W.

On Friday morning I expect to be in Lockport, N.Y. c/o Union Sun & Journal and if my plans do not miscarry will be back in Schenectady on next Saturday.

As I write this a wire just came from Howard Perdue, GE Co., New York, asking me to meet him in Schenectady Monday morning. I may decide not to leave for New York until later Monday but am not sure. The above will give you some idea where to reach me. I'll do my best to see you in Troy, Saturday morning, March 1st.

Mr Frank L York
General Manager
The Troy Record Co
Troy
New York

Sincerely yours,

Ernest A. Barbeau
