

ERNEST A. BARBEAU
RADIO STATION CONSULTANT
84 FURMAN STREET
SCHENECTADY 4, NEW YORK

March 7, 1947

Dear Frank:

My practice is to keep my clients fully informed on every phase of their projects. Whenever I write on key situations I invariably send copies to my principals.

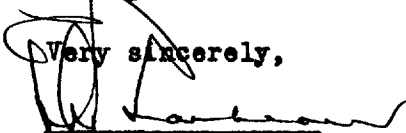

Enclosed are several such carbon copies treating variously with your project.

I plan going to Syracuse Monday night for another check with GE engineers. I wrote Bill Broughton I was coming and here is a copy of my letter that will start him thinking.

I phoned you this morning asking that you mail (registered mail) to me your copy of the engineering report and contour maps with profiles to reach me Monday. You also said you would make a copy of the engineering report and send it over. I also suggested you ask Barron for a duplicate set of maps, profiles, etc. to which you are entitled. I must have a set on hand at all times.

On my return from Buffalo the end of next week I'll contact you. Meantime I hope that some of the answers will be forthcoming from the power and telephone companies.

Very sincerely,

Ernest A. Barbeau
