Dear Mr. Forlish:

My client, The Troy Record, plans a radio broadcast station in the Helderbergs adjoining property owned by General Electric Company on Pinnacle mountain. Our site lies between GE's television station and the small FM station of Capitol Broadcasting Co. You are probably familiar with the area.

Pending approval of the site by the Federal Communications Commission, we plan to erect a transmitter station and will require water. I have tried repeatedly to reach you by telephone without success. If you are interested in figuring on a well for this installation, kindly telephone me on Schenectady 4-7050 for an appointment. I will go out with you and show you the property by arrangement to best suit our mutual convenience.

Cordially yours,
